Project Design Phase-II Data Flow Diagram & User Stories

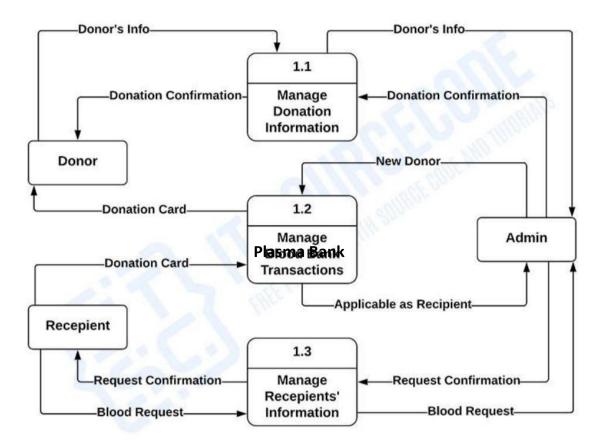

Date	10 October 2022
Team ID	PNT2022TMID51379
Project Name	PLASMA DONOR APPLICATION
Maximum Marks	4 Marks

Data Flow Diagrams:

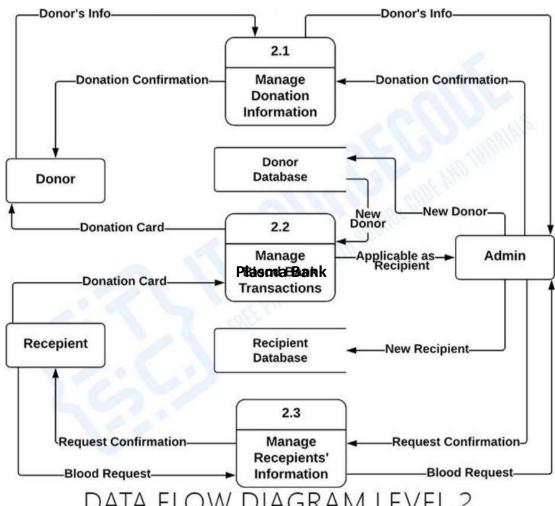

Plasma Donor Application Data Floe Diagram

DATA FLOW DIAGRAM LEVEL 0

DATA FLOW DIAGRAM LEVEL 1

DATA FLOW DIAGRAM LEVEL 2

User Stories

Use the below template to list all the user stories for the product.

App Registration					
	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
Login	USN-2	As a user, I can log into the application by entering email & password	I can receive confirmation email & click confirm	High	Sprint-2
Register For Donate	USN-3	As a user, I can log into the application and find the current bank to donate plasma and confirm my booking	I can register & access the dashboard with Facebook Login	Medium	Sprint-3
Find the bank	USN-4	As a patient, I can directly access the application and find the plasma available bank	I can access my account / dashboard	High	Sprint-1,2
Request for plasma	USN-5	As a user, I can enter into the application and find the current bank and request for plasma and state the emergency	I can register & access the dashboard with Facebook Login	Medium	Sprint-3
Maintain the applications	USN-6	As Administrator I can log into the application by entering email & password and maintaining details for users	I can access my account / dashboard	High	Sprint-3
Connect The Bank With Users	USN-7	As Administrator, i can hold the good communication between bank and user	I can access my account / dashboard	Low	Sprint-4
Maintain Database	USN-8	As Administrator i can hold the exact details of donor and patient and also bank for requesting and available of plasma	I can access my account / dashboard	Medium	Sprint-4
Connect The Bank With Users	USN-7	As Bank, i can hold the good communication between Administrator and user	I can access my account / dashboard	Medium	Sprint-3
Maintain Database	USN-8	As Bank i can hold the exact details of donor and patient and also bank for requesting and available of plasma	I can access my account / dashboard	High	Sprint-4
Help the user my bot mesg in appliation	USN-9	As Al bot, i can hold the good communication between bank and user also help the user	I can access my account / dashboard	Medium	Sprint-4
	Register For Donate Find the bank Request for plasma Maintain the applications Connect The Bank With Users Maintain Database Connect The Bank With Users Maintain Database Help the user my bot mesg in	Register For Donate Find the bank USN-4 Request for plasma Maintain the applications Connect The Bank With Users Maintain Database Connect The Bank With Users Maintain USN-7 Bank With Users Maintain USN-7 Bank With Users Maintain USN-7 Bank With Users Maintain USN-8 Database Help the user my bot mesg in	Register For USN-3	entering email & password email & click confirm Register For Donate USN-3 As a user, I can log into the application and find the current bank to donate plasma and confirm my booking I can access the dashboard with Facebook Login Find the bank USN-4 As a patient, I can directly access the application and find the plasma available bank application and find the plasma available bank I can access my account / dashboard Request for plasma Request for plasma and state the emergency I can enter into the application and find the current bank and request for plasma and state the emergency I can enter into the application by entering email & password and maintaining details for users Connect The Bank With Users As Administrator, I can hold the good communication between bank and user Maintain USN-8 As Administrator i can hold the exact details of donor and patient and also bank for requesting and available of plasma Connect The Bank With Users As Bank, I can hold the good communication between Administrator and user Maintain USN-8 As Bank, I can hold the good communication between Administrator and user Maintain USN-8 As Bank i can hold the exact details of donor and patient and also bank for requesting and available of plasma Connect The Bank With Users As Bank i can hold the exact details of donor and patient and also bank for requesting and available of plasma Help the user my bot mesg in MSN-9 As Al bot, I can hold the good communication between bank and user also help the user dashboard I can access my account / dashboard	entering email & password email & click confirm Register For Donate Register For Donate As a user, I can log into the application and find the current bank to donate plasma and confirm my booking Find the bank USN-4 As a patient, I can directly access the application and find the plasma available bank Request for plasma Request for plasma USN-5 As a user, I can enter into the application and find the current bank and request for plasma and state the emergency Maintain the applications USN-6 As Administrator I can log into the application by entering email & password and maintaining details for users Connect The Bank With Users Maintain Database Connect The Bank With Users As Bank, i can hold the good communication between Administrator and patient and also bank for requesting and available of plasma Connect The Bank With Users As Bank, i can hold the good communication between Administrator and user Maintain Database USN-8 As Bank, i can hold the good communication between Administrator and user Maintain Database USN-8 As Bank, i can hold the good communication between Administrator and user Maintain Database As Bank, i can hold the good communication between Administrator and user Maintain Database As Bank, i can hold the good communication between Administrator and user Maintain Database As Bank, i can hold the good communication between Administrator and user Maintain Database As Bank, i can hold the good communication between Administrator and user As Bank i can hold the good communication dashboard Medium dashboard High Medium Medium Medium Database Medium Database As Bank, i can hold the good communication between bank and user also help the user Medium Database Medium Database Database
